Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Saturday 20 Feb 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Unsettled with rain and showers. Gales in north tonight. Mild.

This Evening and Tonight:
Severe gales clipping northwest Scotland, followed by clear spells and blustery showers. Elsewhere rain in the west easing and becoming confined to southeast England later, where staying very mild. Winds becoming mostly light across England and Wales by morning.

Sunday:
Rain, mostly light, across southeastern areas of England, probably edging westwards later. Showery in the northwest with some sunny intervals, but a wedge of fine weather in between these areas.

Outlook for Monday to Wednesday:
Monday, rain in parts of the south, drier and brighter elsewhere. Wet and windy across the north and west on Tuesday and Wednesday. Staying drier elsewhere. Mild or very mild.
